

TANLAC IS COMING TO BRIDGEPORT

Arrangements Completed for Introduction of Famous National Tonic.

ENDORSED BY THOUSANDS

Preparation from Formula of Famous Chemist is Eagerly Awaited by Local Citizens.

Tanlac is coming to Bridgeport.

Arrangements were completed yesterday for the introduction here of the remarkable medicine that is in one and one-half million homes in southern and eastern states, where run down men and women are built up by the national reconstructive tonic.

If possible the introduction will begin Saturday in a leading downtown drug store, specially selected for the purpose.

The introduction here of Tanlac holds unique interest. A little more than a year ago this tonic, now conceded to have greater therapeutic value in cases of stomach and nerve exhaustion and catarrhal affections of the mucous membrane, than anything so far discovered, was placed on sale in a single drug store in Lexington, Ky. Within six months the extraordinary merit of Tanlac has so impressed many thousands of run down men and women that the original Tanlac company was unable to fill orders beyond a limited territory.

Recent formation of a company makes the introduction of Tanlac here possible at this time. The introduction is, in itself, unique. In each city there is stationed a man, especially trained at the Tanlac laboratories of the Cooper Medicine Company, Dayton, Ohio, who meets the public and explains Tanlac, how it should be taken and the results that may be expected from its use.

Tanlac is a vegetable preparation from the formula presented by a noted chemist and health advocate. The remedial effects of Tanlac have been publicly told in detail to more than 350,000 people in plain, matter of fact words.

Nervous run down men and women whose strength has been sapped by modern maladies springing from disordered stomach, liver or kidneys or catarrhal troubles which are the base of so many ills, and who need more strength, better assimilation, regulated circulation, quick and effective toning up of the nerves; in short, a purification of the system, will find that nothing compares with Tanlac.

Official Views of World's War

FRENCH.

Paris, Oct. 5.—Bulgarian troops have been successful in halting the advances of the entente forces on the several sectors of the Macedonian front, the war office announced today.

"Macedonian front: Between Presba Lake and the Vardar there has been lively artillery and infantry activity. We nipped in the bud enemy attempts to advance north of the line of villages of Strupino and Babova. East of the Vardar and Lake Doiran there has been weak gunfiring. Our artillery dispersed two enemy companies which had thrown up trenches south of the village of Doidenels at the foot of the Blazica Mountain.

"On the Struma river fighting has taken place for the villages of Kara-Jakel, Yenikul and Kadricho. Our infantry during the morning had succeeded in approaching the burning village of Yenikul."

BULGARIAN

Sofia, Oct. 5.—The war office today gave out the following official statement:

"On the Danube front, 15 or 16 Rumanian battalions of artillery which crossed the Danube near Rahovo advanced and occupied the villages of Stropol, Kalambe, Borosawo, Mac-lowranowo, Golemnorajowo and Brestschien. In order to repulse them we sent two columns from Ruchuk to Turukel. On Oct. 3, the troops from Ruchuk attacked the enemy and speedily forced him to seek refuge in the direction of his pontoon bridge, which was destroyed by Austrian monitors. The battlefield is covered with enemy dead.

"Towards evening we occupied the villages of Lishawo and Babow. The enemy troops retreated in disorder eastward, consequently meeting our troops advancing from Turukel. The surrounded enemy was dispersed. Our troops today are completing his destruction.

"In Dobruja there has been great activity by the enemy artillery and infantry along the entire front. All attempts by the enemy infantry to advance were frustrated by our fire and by successful counter-attacks.

"A Russian war vessel off the Black Sea coast shelled the heights near the village of Varna. Our planes attacked with great success a seaplane shed on Lake Tcha-Ul north of Constantza."

BRITISH

London, Oct. 5.—"South of Ancre, on the Somme front, there was intermittent shelling during the night," says today's official announcement.

FOR DANDRUFF, FALLING HAIR OR ITCHY SCALP--25 CENT DANDERINE

Girls! Girls! Save your hair! Make it grow luxuriant and beautiful.

If you care for heavy hair, that glimmers with beauty and is radiant with life, has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you can not have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fashish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy, or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. It eventually—why not now?

to 11 \$1.75; size
11 1/2 to 2 at \$2

TROLLEY CAR ON STEEP GRADE IN PERIL OF WRECK

Prompt Action of Conductor, After Motorman Jumps, Averts Disaster

A tussle between an Oak street car of the Connecticut company, followed by the jumping of the motorman as the car began its descent on the hill toward the congested corner of Main and Congress streets, precipitated panic among the many passengers last night, and a wreck similar to that of four years ago in which a number of were hurt was narrowly averted by the coolness of a conductor and an inspector.

Conductor William Hill of 123 East Main street, whose record with the company shows his quick presence of mind in several emergencies, and Inspector George Day, living in Golden Hill street, are credited today by witnesses with having averted a most serious accident.

A heavy car of the Seaview avenue Oak street line had just begun to climb the Congress street grade at 8:15 last night when the controller box flared up. The car was of the closed type and well filled with passengers, many of whom were women, at once began to run back down the hill. The motorman is said to have jumped from the platform.

Conductor Hill ran to the back platform and jammed the hand-brake with all possible force, ringing his gong violently as a warning to traffic on Main street. Inspector Day on duty at the intersection saw the car sliding slowly towards his position and stopped all traffic waiting at that point. He ordered persons to throw rocks under the wheels and by this means, and the hand-brakes, the progress of the heavy weight was permanently stopped.

Tests made this morning of the air-brakes which the motorman declared to have been defective disclosed that they were in perfect working order, according to official statements.

A similar accident on the night of September 9, 1912, caused the wrecking of two cars, one of which was thrown through the windows of a saloon then occupying the southeast corner. Several were seriously injured and later recovered large damages.

OYSTERMEN PROTEST TAX.

Protest has been lodged with the State tax commission against the new assessments laid by the state oyster grounds. In a hearing before the commission in Hartford yesterday one oysterman said his company had no books in this state, when asked to prove by figures that there is no profit in the business. Most of the others were not represented. The oystermen object to the tax on the ground that pollution of the waters has killed the chances of gain in the business.

BAKER BANKRUPT.

Gesa Topplinger, a baker of 243 Hall street, filed a petition in bankruptcy in the United States court yesterday. He has liabilities of \$2,710.30, and all but \$200 of the amount is unsecured. Assets consist of stock in trade valued at \$10, cash on hand, \$1,000, horse, \$250, wagons, \$150, machinery and tools, \$600, debt due on open account \$400.

LAND IN REDDING BEING PURCHASED BY HYDRAULIC CO.

Milk Situation Clears Somewhat and Outlook For Producers Brightens.

Redding, Oct. 5.—The latest land purchase in this section by the Bridgeport Hydraulic Co. is that of Henry J. Kennel's farm in Sanfordtown, near the Weston line. The property adjoins the John Peters tract which the company acquired a few weeks ago and comprises about 100 acres with buildings. It was formerly the Col. Rogers place and the large house is of the Colonial type and times. Mr. Kennel bought the property about 12 years ago for about \$1,600. What the water company pays for it has not become a matter of public knowledge, but a guess consensus places the figure at about \$3,000. Recently the company bought from Miss Elsie M. Crosby a considerable tract located in the Good Ridge section to the east of Pleasant Valley, and formerly owned by Miss Edna Goodsell. Still another purchase is that of a tract from Jacob Beck of 72 acres lying in the Hopefield district. A brook which empties into the Aspetuck river runs through the property. Four acres are within the Redding line and from the recent search of the records the interesting discovery was made that this town had never levied any taxes against this particular parcel.

As the local producers understand the milk situation in relation to the Bridgeport market has become somewhat less tense. Word came on Tuesday that the Mitchell Co., the city's largest distributor, had met the producers' price scale, an encouraging circumstance as far as it went, but only a temporary and partial solution of the problem raised by the pasteurization requirement which has been expected to go into effect in the spring. This requirement is established by the board of health. The latter body has, since its first pronouncement, modified the proposed regulations regarding unprocessed milk. Under this relaxation raw milk, produced under the sanitary conditions prescribed and delivered within 24 hours after it is taken from the cow may go to the consumer. A further concession as to rich milk permits to have a much larger bacteriological content than was originally proposed.

The committee representing the newly formed co-operative dairymen's league met in Danbury last Saturday and made considerable progress with their work. Several Litchfield county farmers, who now send their milk to New York handlers, made known their wish to join the association. While definite action on various essential proposals is yet to be taken the committee are said to be generally in favor of establishing a plant in Bridgeport to serve as league headquarters and provide a place where surplus milk may be made into butter or otherwise utilized to prevent waste. It is the present idea, however, not to install a pasteurization equipment until the necessity for it becomes apparent. The reason for the delay is that several of the city's largest independent dealers, fearful of being put out of business by the Mitchell and Borden companies, are arranging to put in pasteurizing apparatus. These

may furnish all the facilities in that line needed by their purveyors and the association, for the present at least. Therefore, taking the conditions all around, the dairymen feel that the situation is more favorable to them than it appeared two weeks ago.

The nomination of L. O. Peck for senator from the 24th district pleases all who are anxious for Democratic success. D. S. Sanford, in his strong and earnest nominating speech before the convention at Danbury last Saturday, expressed the opinion that Mr. Peck could win if any Democrat could and the action of the delegates indicated that they felt the same way. Although the 24th was carved out with the design of making it a safe Republican district, Mr. Peck carried it four years ago by a thumping majority. The Progressive vote counted largely in this result, but he ran ahead of most of the other candidates on his ticket, and it may reasonably be presumed that this Progressive element largely remains favorable to him as his record in the Legislature was in harmony with their professed principles while his present opponent, Mr. Bissell, represents the type of machine and reactionary Republicanism against which the Progressives revolted. Mr. Peck's chances at the November election may therefore be considered promising despite the nominal Republican majority.

Herbert McFarlane, employed by John G. Stetson, was arraigned before Justice Pinkney on Tuesday charged by his wife with non-support. The latter was Miss Ella Wood and a Ridge resident when the couple were married last June. A few weeks later she left him and returned to her parents. A reconciliation having been effected she returned to him on Aug. 22, but again deserted him last week and went to Grand Juror Hohman with the complaint on which McFarlane was arrested on Saturday. In her testimony at the hearing she said her husband abused and mistreated her in various ways and also presented statements regarding his physical condition which, if true, would make it impossible for any self-respecting wife to live with her husband. These statements the accused denied, generally in detail. His counsel, Attorney Taylor of Danbury, put up a vigorous defense and the testimony was very conflicting. Justice Pinkney adjourned the case under \$100 bonds for two weeks when briefs will be presented in regard to the legal questions raised by Lawyer Taylor.

In the parlors of the Center Methodist church on Tuesday evening a reception was given Rev. B. E. Case, last Saturday from their wedding trip. The pastors and congregations of the Episcopal and Center Congregational churches had been invited to participate in the occasion and the latter were well represented, the attendance being about one hundred. The exercises, in addition to the usual congratulations and good wishes, comprised a song by George White of West Redding and readings by Miss Beanie Hatch, principal of the Center school, Mrs. Olivia Sanford and Mrs. John C. Reed. Afterwards refreshments were served. A special table which had been set aside for Rev. and Mrs. Case, Rev. and Mrs. Woolworth and Rev. and Mrs. Cunningham, bore a bridal loaf and a big cluster of roses. Toasts appropriate to the occasion were felicitously responded to by the groom and his two brother ministers who have been brought into close personal relations through a series of union church services held during the past summer. The selectmen, last Saturday, signed orders aggregating about \$2,300 and as the treasury was empty authorized the town treasurer to negotiate a loan for that amount. Hearing of this action Tax Collector Muennich declared that no borrowing was necessary because

he had received about \$1,600 in advance payments and could easily make up the balance at the town house on Monday on which date taxes became due and payable. The receipts that day were upwards of \$1,800, making a total on hand of about \$3,500. This sum being promptly turned over and deposited the treasury was well fortified to meet the treasurer's checks for town obligations.

Emil Schoch, for the past seven years teacher of modern languages in the Sanford school, left on Saturday to enter upon his new position in a preparatory school at Strathmore, Pa. He will be greatly missed at the Ridge, not only by the school with which he has been identified, but by outside social circles where his accomplishments as a linguist, musician and artist and his genial and helpful disposition made him a prime favorite. Everybody is hoping that he will come back.

After successfully evading capture for several days Elmer Deming, the colored youth who stole a bicycle from the premises of Miss J. H. Sanford, was finally run down by Constable Warner and by due process of law is now an inmate of the Connecticut School for Boys under sentence pronounced by Justice Pinkney.

The Democratic caucus for the nomination of candidates for representatives, judge of probate and justices of the peace will be held at the town house next Monday evening.

The committee on the purchase of state chemical engines did not meet at the monthly meeting of Fire Co. No. 1 on Tuesday evening and no business of importance was transacted.

Canton Trust Co.

To Liquidate Soon

Collinsville, Conn., Oct. 5.—The Canton Trust company, which has a savings department and which has been conducted as a banking institution for the past 45 years, is to be liquidated, it was announced today. Action toward this end was taken at a meeting of the directors last night when they adopted a resolution asking for the appointment of a receiver and accepting a restraining order from the banking department of the state in order to protect the depositors. It was expected the application for the receiver would be made in the superior court at Hartford today.

Benjamin F. Case, president of the institution, said today that the affairs of the trust company were in good shape but that the action was being taken because some of the assets were liable to depreciate. No statement of the assets and liabilities was given out. The aggregate deposits in the trust and savings departments were said to be about \$225,000.

MONROE COURT FINES

FOUR AUTOMOBILISTS

(Special To The Farmer.)

Monroe, Oct. 5.—Four Bridgeport automobilists were arraigned before Justice Hull last evening at the Town hall, Monroe, charged with recklessly driving their machines through the town. Two of the cases were continued until Saturday. William Schietinger of 245 Main street was fined \$10 and costs. The costs amounted to \$15.80. Michael A. Lepore of 245 Main street was assessed \$10 and costs. The cases of Robert F. Pleasant of 1337 Central avenue and C. W. Gardner of State street were continued until Saturday morning.

All records for exports from Philadelphia to Europe broken in September. Cargoes valued at \$38,000,000 were shipped.

EVANS-BUTLER.

Miss Ethel Butler, daughter of Mr. and Mrs. Andrew D. Butler of 40 Bonham avenue, and Mr. William A. Evans of 261 Bronx avenue, were married Tuesday evening, Oct. 3, at the rectory of St. Augustine's church, by Rev. James J. Nihil. Miss Harriet Langham was bridesmaid and George Butler, brother of the bride, was best man. Miss Butler wore handsome blue satin traveling costume with hat to match. Miss Langham wore a gray crepe de chine gown with hat to correspond. Mr. and Mrs. Butler left on a wedding trip the destination of which they refused to reveal. They will be at home to their friends after Oct. 10 at 212 Maplewood avenue.

N. Y. Wholesale Prices.
